Definitions

The definitions below should be used in interpreting the tables which follow:

Population Served — population according to the 1970 Census or subsequent special federal census.

Total Transactions — the total for direct circulation of all materials to library users.

Assessed Valuation 1976 — assessed valuation of real property reported in thousands of dollars. Information is taken from the abstracts for the 1977 assessment year on file with the Illinois Department of Local Government Affairs.

Tax Rate — shown as a percent and should be interpreted as follows: "a tax rate of 0.12% is equal to 12 cents per $100.00 of assessed valuation." Information is taken from the abstracts for the 1977 assessment year on file with the Illinois Department of Local Government Affairs.

Local Government Receipts — the amount of revenue received by the library from local government sources during the 1978-79 fiscal year. This amount does not include revenue sharing, but does include all local taxes received, including both current and back taxes.

Total Receipts — the total amount of money received by the library from all sources during the 1978-79 fiscal year. This amount may include receipts for capital expenditures.

Operating Expenditures for Wages and Salaries — includes wages and salaries paid to all staff, except maintenance personnel. Does not include fringe benefits such as the library's contribution to insurance, social security, and retirement.

Total Operating Expenditures — includes expenditures for all wages and salaries, including fringe benefits; expenditures for library materials, supplies, binding and rebinding, and plant operation and maintenance.

Total Expenditures — total operating expenditures plus capital outlay for sites, buildings, remodeling of old buildings, purchase of initial bookstock for new or expanded buildings, or the purchase of new vehicles.
